

### Rebuttal for Team 8

Bug Report Number	Status	Reason if invalid	Comments (this column should be left empty; for marking usage)
1	Valid		
2	Invalid	Pwd taking additional arguments is consistent with how it works in the Unix shell.	
3	Valid		
4	Valid		
5	Valid		
6	Valid		
7	Invalid	Echo doesn't use stdin, so I don't think echo need to check this.	
8	Invalid	Echo doesn't accept empty argument, if it does, why should we use pwd to show the dictionary?	
9	valid		
10	Invalid	We use exitException with special message to terminate the shell, this bug will be fixed when 9 <sup>th</sup> is done.

15	Valid		
16	Valid		
17	valid		
18	Invalid	From what we can tell, the behavior we have is consistent with the unix shell.And the project description says "If no folders are specified, list files for current directory."	
19	valid		
20	Invalid	Duplicate. Same as bug #3. We did not trim whitespaces so ls is not recognized when doing "ls ", the same way "pwd " does not work.
